Impoundment level is 3.8 metres above chart datum and all times are local.

For flood prevention, the lock will be closed to traffic when the tide level outside reaches 5.6 metres above chart datum and will open again when the tide outside recedes to 5.6 metres above chart datum.

Passage through the lock is on request whilst the water level within Sutton Harbour remains higher than 3.5 metres above chart datum. If the water level recedes below 3.5 metres above chart datum passage into the harbour will be on the hour and passage out from the harbour will be on the half hour until the tide level outside reaches 3.5 metres above chart datum. For vessel safety, the lock will be closed to traffic if the tide level inside the harbour recedes below 3.2 metres above chart datum and will open again when the tide outside reaches 3.2 metres above chart datum.
